40 CFR 262.56(a)(5)(I) requires that the exporter provide information related to efforts undertaken to reduce the volume of waste generated in even numbered years.

The Dolton Recycle Center is not the original generator of the hazardous waste that is exported. The facility is an intermediate facility that is generally utilized to consolidate hazardous waste for shipment to the Canadian facilities operated by Safety-Kleen. Therefore, it is not applicable for the Dolton facility to evaluate means in which to reduce the volume and toxicity of the waste exported.
